Without Warning Hurricane Rushed Upon Water Front.

BUSINESS ENTIRELY SUSPENDED

Typhoon Lasted for Two Hours and a Dozen Steamers Are Known To Have Been Lost in the Storm—Description of Lost Vessels.

Hong Kong, Sept. 19.—A disastrous typhoon occurred here Tuesday. A dozen steamers in the harbor have sunk or are in a sinking condition, or have been driven ashore. The American ship S. P. Hitchcock is ashore. The British steamer Kwong Chow has sunk. The steamer Mont Eagle, belonging to the Canadian Pacific Railroad company, is ashore. Two other British steamers, the San Cheung and the Wing Chai have also sunk. The Fatshan is ashore. The German steamer Appenrade is in a sinking condition, and the German steamers Signal, Petrarch and Emmaluyken are ashore. The German steamer Prinz Balendar was damaged. The Mont Eagle had her stern post broken. Attempts are being made to float her.

Hong Kong is an island situated in the China sea off the coast of China from which it is separated by a narrow strait. It was yielded to Great Britain by treaty in 1842. The roadstead has a well protected anchorage. Victoria, the capital, itself commonly called Hong Kong, is situated on a magnificent bay of the same name, setting up into the north side of the island.

Hong Kong is a great center of the foreign trade of China. Total exports are roughly estimated at $125,000,000 and imports at $100,000,000. As a British colony, on Chinese soil, it is the most important in its political and defensive position and is the headquarters of the military, naval and mercantile establishments. The population of Hong Kong, the city, is about 275,000.

New York, Sept. 19.—The British ship Mont Eagle arrived at Hong Kong Sept. 14, from Vancouver and Honolulu. The steamer registers 3,482 tons net, is 445 feet long, 52.2 beam and 27.7 feet in depth. She was built at Newcastle in 1899.

The German steamer Johanne sailed from Deli, an island off Java, on Aug. 12. The Johanne registers 952 tons, net, is 255 feet long, 36.5 feet beam, and 18.1 feet in depth. She is owned by M. Jassen.

The British steamer Fatshan was built at Leith in 1887. She registers 1,425 tons net, is 280 feet long, 54 feet beam and 10.2 feet in depth.

The British steamer Sanchung was built at Hong Kong in 1902, of 389 register 189.8 feet long, 33.2 feet beam, 9.1 feet depth and is owned by the Cheung On steamboat company, of Hong Kong.

Reunion of Wilder's Brigade.

Chattanooga, Sept. 19.—Members of Wilder's brigade, a famous organization in the army of the Cumberland are arriving in large numbers for a reunion which will be held on the 19th and 20th, the Forty-third anniversary of the battle of Chickamauga and the preliminary movements in which the command bore a prominent part. Brigade was made up of infantry regiments from Indiana and Illinois, was armed with breech loading rifles, then very rare in the field which fact made them notorious in both the union and confederate armies.

Girl Is Slain by Her Brother.

Athens, Ga. Sept. 19.—Monday morning at 7:30 o'clock in Danielsville, Clyde, the 13-year-old daughter of W. W. Barnett, was instantly killed by the discharge of a gun in the hands of her 11-year-old brother. The little girl was sitting at an organ playing, and the little boy, unknown to her, had secured an old gun that he didn't know was loaded. Suddenly the weapon was discharged and the load of shot tore through the brain of the girl, death being instantaneous.

MANNING TRIED TO KIDNAP BOY

Little Young Tillman's Cries Were Choked.

Valdosta, Ga., Sept. 19.—A daring and almost successful attempt to kidnap little Young Tillman, one of Valdosta's leading citizens, was frustrated, and as a result John Manning, a white man, is now in jail with a grave charge hanging over him.

The child was missed from home about dark, and as search of the premises and neighborhood failed to disclose any trace of him his parents were soon victims of the most agonizing fears. The police, neighbors and family kept the search up some hours, but it seemed that it would be in vain.

The child was last seen riding his tricycle on the street near his home, and Mr. Tillman and the child's grandfather, T. S. McKey, found the tricycle near the Presbyterian church, about a block away from the home. Mr. Tillman glanced over into the church yard and as he did so saw his child's feet protruding from under the church building. The awful thought occurred to him that the child had been murdered and his body thrown there, and running hastily to the spot he grabbed his boy in his arms, to find that he was alive and unhurt. As Mr. Tillman picked the little fellow up he saw a man lying by the church yard wall where the boy had lain. The man declined to make any statement and was turned over to the police.

The child was terribly frightened, and it was some time before he had sufficiently recovered to tell of the kidnaping. He then stated that the man had stopped him on the street and made him go with him to the church yard, where they had lain hid for two or three hours. He said that Manning choked him every time he attempted to cry out, and forced him to remain silent.

It is said that Manning has been drinking heavily of late, and it may be that he was crazed from the effects of the whisky. The surmise is that he expected to carry the child to some place later in the night and hold him for ransom. The boy was not mistreated in any way except the choking the man gave him when he attempted to call for help.

Fired On By Rebels.

New York, Sept. 19.—A special cable to the World states that some subordinate officers of the United States cruiser Denver were fired on by rebels as they were riding in the country in an automobile Sunday night. No one was hit and as soon as the rebels discovered their mistake they were profuse in their apologies. They explained that they were expecting some Cuban government officers to pass that way and they sent a volley after the first auto that came along, which happened to be the car occupied by the American officers. A little later the car was fired on again with the same result—nobody hit, and apologies.

Presents Medal to King Leopold.

Paris, Sept. 19.—David B. Francis president of the Louisiana Purchase exposition, arrived here Tuesday from Brussels, where he presented the St Louis exposition medal and diplomas to King Leopold. Mr. Francis is watching the political developments in the United States with keen interest. He told the Associated Press that in his opinion the party advocating government ownership of rail roads would be defeated in 1908. He was glad therefore, to see that William Bryan, in his Louisville speech had disclaimed the intention of trying to commit the Democracy to that doctrine.

Examined Slaughter Houses.

London, Sept. 19.—William Hayden who attended a conference of the master butchers of Milwaukee, has returned to London and in an interview given, the results of his visits to various Chicago packing houses. Mr. Hayden says he made an exhaustive examination of the various departments from killing to canning. The slaughtering is carried out in the most humane and scientific manner, although it might seem repulsive to a non practical person. He found the employes clean in their persons and the work blocks and floors exceedingly clean and well kept.

BRYAN'S PLAN IS OPPOSED BY BACON

Democratic Senate Leader Opposes Government Ownership.

SAYS GRAFTERS WOULD RULE

Bacon Declares that If Government Should Take Over Railway Lines a Paradise for Grafters Would Be Created—Plan Not Practicable.

Washington, D. C., Sept. 19—Senator A. O. Bacon, of Georgia, has spoken emphatically in opposition to the railroad ownership plan advocated by William J Bryan. The Democratic leader of the senate expressed his views while passing through Washington enroute to Atlantic City, where he will take a rest.

"I am not in favor of the government ownership of railroads by the United States government" said Senator Bacon. "In its practical operations it would be paternalistic socialism. I can think of a score of strong and sufficient reasons against it, and scarcely one good reason for it—certainly not one that is not counterbalanced in ten-fold degree by the evils which it would entail."

Asked some of the reasons against railroad ownership, Senator Bacon remarked:

"It would be impracticable for the government to maintain and operate 225,000 miles of railroad economically and honestly and build new lines that would be required as well. It would present the most inviting and unlimited field for graft and thievery the world ever saw.

"The government-ownership, maintenance, and operation of the railways of the United States would constitute a political machine the reach and resistless power of which cannot be realized or even conceived of; and if it is within the power of money to corrupt our people, that machine would be controlled by the army of grafters and thieves who would be in the plundering business," he declared.

"The business interests of a community, or even of a whole section, would be but so many pawns in the political game to be sacrificed at will in the interest of the players. And aside from business interests which would thus be jeopardized, the control of passenger transportation in the several states by a political party or political machine would render conditions in some sections of the country absolutely intolerable, and when this is properly understood and appreciated, government ownership of railroads, involving such political control of passenger trahsportation, will have no friends in such communities, and especially in the south.

"The suggestion that the general government shall own the trunk lines and that the state shall own the local lines, I do not regard as practical. Shall business with some railroads in a state be controlled exclusively by laws enacted by congress, while the same kind of business with other railroads in the same state is to be controlled by laws enacted by the legislature of that state? Who is to determine what are trunk lines? And when a local line grows in importance will the general government classify it as a trunk line and arbitrarily take it away from the state? How will business men know where they are at in dealing with railways under a dual administration of the same?

"I believe that the recently enacted rate law, and the previous enactment known as the Elkins law, will control the railroads. If experience shows defects in such laws, there will be supplemental legislation to cure them. Until in practical operation such defects are shown, there is no call for the agitation of the question of government ownership. I am frank to say that have no fear that the American people will decide in favor of government ownership of the railways. On the contrary, I have no doubt they will overthrow any political party that advocates it. It is unfortunate if there is basis for the charge that any political party favors it."

MENACE NEGRO'S SLAYER.

White Man Kills Negro and Riot Almost Results.

Macon, Ga., Sept. 19.—Joseph C. Smith, a retail grocery merchant who keeps a store near Pleasant Hill, in Vineville, fired three times on Black Morton, a negro driver for Armour & Co., at his store, killing him instantly, after the negro had prepared to advance on him with a knife. Immediately afterwards a mob of several hundred angry negroes gathered and it took the presence of Sheriff Geo. Robertson and several deputies with Jailer Hubbard, working as a squad of armed officers to keep down what promised to be nothing less than a riot.

The killing occurred in a negro section and in a moment after Morton was killed they began congregating and making threats. Smith boarded a car and came down town to surrender. When he reached the sheriff's office, the matter was related, the man was taken in charge and the sheriff went immediately to the scene of trouble.

It took some time to get the true cause of the killing, as high excitement had run among the negroes, Morton lay face downward, a knife at one side, and many unruly negroes standing around. For some time the situation looked dangerous, but there was no further trouble and the affair has apparently been forgotten.

Morton went to the store with some beef which he said Smith had ordered last week and wanted to deliver it. Smith denied having made the order and cursing followed. Each called the other bad names until they finally began fighting. When Morton drew his knife, Smith drew a 32 caliber revolver and began firing. Every shot took effect, and Morton keeled over dead. A coroner's jury has rendered a verdict justifying Smith on the grounds of self-defense.

300,000 People at Coney Island.

New York Sept 19. It is estimated that 300,000 persons visited Coney Island Monday night and helped make the opening night of the Mardi Gras carnival the greatest ever known at that place. From end to end of Surf avenue was streaming with banners and blazing with lights. Long strings of electric bulbs made a glittering firmament under which the great crowds surged to and fro. There was a parade with floats and a king and queen were crowned with medieval solemnity and ceremony. The merrymaking continued until the early morning. Never for a moment did the crowds cease to shower confetti. Good temper prevailed everywhere although there were some examples of ugliness. Getting the crowds to their homes was a serious question, and thousands had to wait for hours before being able to get a car for Brooklyn.

The Tokio Mainichi publishes details with photographs of executions of 16 Koreans, among them a woman, alleged to be a bandit. The correspondent writes: "The scene was so terrible that it could not possibly be described. The families and relatives of the condemned were present and they embraced the hanging dead and cried aloud while clinging to the bodies." The Mainichi warns Marquis Ito that barbarous executions should be stopped.

TOOTHPICKS.

A Visit to London and a Little Lesson In Etiquette.

"I ran over for a short visit to London," said a globe trotter. "On the boat was a pretty widow from Altona who disgusted and amused all hands one day by saying:

"'I am surprised that a fast and expensive boat like this should fail to supply us with toothpicks.'

"She thought toothpicks indispensable, like napkins or forks. For thinking so we set her down as a hecker. But wait.

"I dined during my visit in London at Prince's, in Piccadilly, and at the Savoy, in the room that overlooks the embankment and the river, and at the Carlton, where I paid a dollar for a plate of soup, and at all these restaurants, which are admittedly the finest and the smartest and the most fashionable in the world. At all of them there were toothpicks on the table, each toothpick done up in a sterilized envelope.

"This taught me a lesson. It taught me that it is narrow and provincial to despise people, for their disregard of certain small rules of etiquette. The things we despise them for, which may be glaring errors in Seattle or New York, may be again, as like as not, the correct thing in Paris and London."—New York Press.

How Sound Waves Move.

The speed with which sound waves are transmitted through the atmosphere depends on several conditions. When the temperature is at 32 degrees F., sounds move with a speed of 1,090 feet per second, the velocity increasing with the temperature at the rate of about one foot of speed per second for each degree above the freezing point. Then, again, in damp air sound moves with a greater velocity than it does in dry air, no odds if the dry air be warm and the damp cold. In water sound moves more than four times as fast as it does in air, or, say, at about the rate of 4,700 feet per second.

Wooden Spoons.

A curious industry in Russia and one which nevertheless finds employment for thousands of men is that of making wooden spoons. In the district of Semenovsk, where they chiefly come from, no fewer than 7,000 men make a living at the trade. The spoons are generally made from birchwood, and a skilled workman can turn out several hundred a day. No fewer than 12,000,000 spoons are manufactured during the course of the year, which are sold at 6 to 8 rubles per thousand. They find a ready market and penetrate as far as Persia, Khiva, Bokhara and Khokand.

Husbands.

A woman who shall be nameless furnishes the following essay on husbands:

"There are three kinds of husbands—the young husbands who make us unhappy because we are so jealous of them, the middle aged husbands who break our hearts because they would rather make money or play golf than devote any attention to us and the old husbands who sicken us with their silly objections whenever we turn to look at younger men."—Chicago Tribune.

Different Times.

Sarasate once found his memory deserting him at a recital, but he discovered the reason of the mishap in time to prevent a failure. A lady was fanning herself in the front row of the stalls. The violinist stopped playing. "Madam," he said, "how can I play in two-four time when you are beating six-eight?" The lady shut up her fan, and the recital was concluded successfully.

SORES AND ULCERS

TROUBLESOME-OFFENSIVE-DANGEROUS

Nothing is more discouraging than to have an unhealthy sore or ulcer resist one treatment after another, sometimes scabbing over and apparently getting well, then returning with renewed energy and becoming worse than before. Sores and ulcers are not due to outside causes; if they were, salves, plasters, lotions, etc., would cure them. They are kept up by a diseased and polluted condition of the blood brought on by the absorption of refuse and waste matters of the body into this vital fluid. These accumulations find their way into the blood, usually because of an inactive and sluggish condition of the system. Nature intends that they shall be carried off through the usual channels of waste, but the different members failing to perform their duties properly leave the matter to sour and ferment. The blood then, in its effort to keep the system healthy, absorbs these poisons and at the first bruise, cut or wound the sore is formed, and the constant drainage of foul matter through it keeps the place open and irritated so it cannot heal. Another cause for old sores and ulcers is the polluting or weakening of the blood from the remains of some constitutional trouble or the effects of a long spell of sickness. S. S. S. begins at the fountain-head and drives out all poisonous matter and germs, and makes a lasting cure. As soon as the system gets under the influence of S. S. S. the inflammation gradually leaves, the flesh takes on a healthy color, and soon the place is permanently healed. Book on sores and ulcers and any medical advice without charge

ELLIS-HENNINGTON.

Prominent Young Lawyer of Gainesville Weds Jacksonville Lady.

The wedding of Miss Lucille Hennington and Mr. Thomas Benton Ellis, Jr., of Gainesville, Fla., which took place at 6 o'clock last evening at the home of the bride's sister, Mrs. D. Rhantson Williams, 322 East Church street, was unusually pretty. The house was most artistically decorated, from the reception hall, where the piano had been placed, and where the wedding march from Lohengrin heralded the approach of the bride, through the two drawing-rooms and dining-room. The decorations were neat and elaborate, ferns, the bamboo vine and trailing asparagus fern having been used with excellent effect. In the bay window of the front drawing-room a pair of snowy doves were suspended over the alcove in which the ceremony was performed by the Rev. Paul F. Brown of the East Jacksonville Presbyterian Church. Stately palms were arranged at the portal to this recess, to which the bride advanced from the back room through an aisle formed by pink ribbons, carried by two dainty little children, little Miss Clara Johnston and Master Milton Eddson, who wore white with touches of pink. Pink was the dominant note of color in the decorations, and was carried out in every detail, even in the refreshments. The bride was given away by her father, Mr. L. F. Hennington, with whom she entered, preceded by Mrs. D. Rhantson Williams, the matron of honor. Mrs. Williams wore a gown of white chiffon over silk inset with lace and carried a shower bouquet of asparagus fern. The bride, who is a pretty blonde of Dresden china coloring, with soft, light-brown hair, wore a white silk princesse gown, made by her own deft fingers, with exquisite handwork and lace. The pointed girdle is of lace and tiny Valenciennes lace ruffles form the dainty garniture on her bodice. Her only ornament was a gold and shell comb, the gift of the groom. Her shower bouquet was of bride roses and asparagus fern tied with white chiffon. During the ceremony Mrs. Henry Cleland of St. Louis softly rendered "Hearts and Flowers" on the piano. Mr. Ellis' best man was Mr. D. Rhantson Williams. After the ceremony an informal reception for the relatives and intimate friends was held before the young couple left for their wedding journey to Savannah and New York. The bride's going away costume was a smart gray Eton suit, worn with a hand-embroidered lingerie waist and hat of old rose in Milan braid. Touches of old rose Persian embroidery adorn the jacket. The gray gloves and shoes completed the pretty costome. A large number of valuable and beautiful wedding presents attest the popularity of the young people. Mr. Ellis is a rising young lawyer of Gainesville, Fla., which place will be the future home of the young couple. A number of out-of-town guests were here for the wedding, among them being Mr. and Mrs. William B. Stillwell, Savannah; Mrs. George W. Williams, Richmond, Va.; Miss Dora Ellis, sister of the groom, Gainesville, Fla.; Mr. W. B. Ellis, Cedar Key, Fla.; Mr. L. F. Hennington, Abbott, Va.—Jacksonville Times-Union, Sept. 19th.

An Ounce of Prevention

Is worth a pound of cure. There are many poor sufferers, consumptives, who are hopeless of getting well—who, if they had taken care of themselves, would now be well. A cough is the foundation of consumption. Ballard's Horehound Syrup will cure that cough. Mrs. S——, Great Falls, Montana, writes: "I have used Ballard's Horehound Syrup in my family for years—my children never suffer with coughs." Sold by W. M. Jameson.

A MODERN DISPLAY

Showing Up-to-Date Sanitary Fixtures With Sewerage Connection.

When it comes to up-to-date business principles, The S. J. Thomas Company of this city are in the front rank. This enterprising firm, realizing the coming demand for first-class workmen who could construct sewerage in accordance with the provisions of the health department, have secured this class, and are now busy installing this system in advance.

There is in the window of The S. J. Thomas Company a display of sanitary sewerage which cannot help but attract the eye of those interested. This display embraces everything essential to the toilet and lavatory properly arranged for connection with the sewer. This work is done in accordance with the specifications in all other cities where public sewerage is used, and is a practical demonstration of an up-to-date sanitary job, all fixtures being properly vented, and the bath tub being supplied with lead drum trap which cannot be syphoned. This assures at all times an absolute prevention of any sewer gas entering the house. In all, the system employed in this display is perfect, and is bound to prove popular with the people of Gainesville.

Attention, U. D. C.

Owing to the illness of some members and the absence from the city of others, the regular meeting of J. J. Finley Chapter, U. D. C., was not held on Thursday of the past week, but will be held this afternoon at 4:30 o'clock at the home of Mrs. T. W. Shands, East Gainesville, at which a full attendance is desired.

Every man talks in an important way about his mail. He has to go down town Sundays to get his mail; hates to leave town because he misses his mail, and all there is in it is a bill or two and circulars advertising a mining scheme. If he chances to be at home when he opens it, "hush," the mother will tell the children; "don't disturb your father while he is reading his mail."

John G. Ward of Pensacola, says The Times-Union, has what is believed to be the smallest grant of land ever patented in this or any other State. It consists of even one-hundredths of an acre, situated in Lee county and regularly patented by the United States to the State of Florida. Mr. Ward is proud of it and will not sell it. Just what use he will make of it he probably couldn't tell himself.

An excellent ruling has recently been made by the postal authorities at Washington for which they are entitled to the united thanks of the mail carriers. It has been ruled that where a man keeps a vicious dog about his premises that makes it dangerous for a carrier to deliver mail, such delivery may be omitted. Unless the carrier is willing to risk danger of the dog, the owner of the vicious brute will have to depend upon himself in getting his mail at the postoffice.

The article relating to the Jewish New Year, which appeared in the local columns of The Sun yesterday, in which it was stated that prior to the coming of Royal Cook about ten years ago the day had not been observed by the Israelits of this city, was entirely wrong. To the editor's personal knowledge the day has been duly observed in Gainesville for the past thirty years—twenty years before Mr. Cook was ever heard of here. In fact, the old Israelite residents of Gainesville, who are as good people as the sun ever shone upon, have always observed the day and held religious services whenever it was possible to do so.

THAT DRAINAGE BOARD.

Many of those who ardently supported Governor Broward's candidacy, and to whom he is largely indebted for his success, are bitterly opposed to his drainage scheme. Among them is Hon. A. M. Williamson, who has the following comments regarding the Drainage Board in the last issue of his Jacksonville Floridian:

"For a most flagrant piece of usurpation of power, commend us to that drainage commission.

"We can't say that we have any more interest in the adoption or rejection of this amendment to the constitution of Florida than any other citizen of the State, but we feel that we have a duty to perform in exposing corruption, no matter who the guilty parties may be.

"As we now see this drainage scheme we candidly confess we have never seen any piece of legislation fraught with greater dangers to the State of Florida. It overthrows the constitution, and builds upon its wreck an autocracy the powers of which are a menace to the welfare of the whole State.

"It will give to these five men who may constitute the drainage commission powers never dreamed of by the framers of the constitution it seems intended to abrogate or defy.

"The legislative, executive and judicial branches of our State's government, contemplated and recognized by those who framed and ratified our constitution, are to be unified to suit the whims and caprices of a board of five men; from the decision of whom there can be no appeal.

"Not only is this a dangerous usurpation of power, but it is an insult to the constitution every voter of Florida has sworn to 'protect, uphold and defend.'

"Knowing this to be true, we unhesitatingly denounce this amendment as one of the most iniquitous pieces of legislation ever enacted at Tallahassee.

"Unlike a legislative enactment, no possible appeal can be taken. The amendment by its ratification becomes an integral part of the constitution, and from the edict of this board of five men there is absolutely no redress.

"They may in their discretion make drainage districts in whatever localities they choose. They have absolute power to confiscate any man's property by these excessive assessments, and make of that 'right to acquire and defend property,' guaranteed us in the constitution, a delusion and a snare."

There are times when purse strings are tightened when there is a proposition of a public nature calling for contributions. Men will talk of their past contributions, of the failure of this and the other project, and will refuse to pay money for further plans which they say will not bring money to their pockets. There are some of these men to be found in every community, just as there are small potatoes in every hill. But when this condition becomes general, when men to whom the community has a right to look for a slight return for the benefit and the prosperity which they enjoyed, refuse thus to discharge one of their plainest duties, and when the number of such men becomes so great as to threaten the success of movements in the public interest, that condition is an evidence of a species of dry rot which, if not speedily removed, will land the community in the commercial graveyard.

Prof. Tom F. McBeath's Florida School Exponent is the best journal published in the South devoted exclusively to the cause of education. Florida teachers have reason to feel proud of The Exponent.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

For years we have heard physicians in various parts of the State refer in laudatory terms of Dr. J. H. Fogarty of Key West, and the following from The Times-Union convinces us that everything we have heard concerning him is true, and more too: "Florida has one official who is a model of self-sacrificing zeal for the community he lives in. Dr. J. H. Fogarty, who has been acting as city health officer of Key West since the death of Dr. Plummer, recently notified the board of aldermen that he would continue to serve the city as such if the salary of the office and also the collection of the fees on birth and death certificates were abolished. Such an instance is refreshing in this age of graft and exposure. A city officer who does not want salary or fees!"

A Chinese statesman 2,000 B. C. is said to have first used the phrase, "the consent of the governed." It is evidently too ancient and obsolete for the Republicans to pay any attention to it. They don't even care whether the constitution follows the flag.

Wire Explosion Adds to Sea Storm Terror.

New York, Sept. 19.—Many of the 632 passengers on the steamer from Marseilles, Naples and Palermo, spent their time in prayer and weeping while the steamer labored in a terrific gale at sea on Sept. 11. For twelve hours the steamer's decks were continually swept by heavy seas and the pasengers were kept below. Cattle pens, chicken coops, boat covers and almost everything movable on deck were smashed or swept overboard. The heavy seas smashed a pen, releasing several bulls, which floundered about the decks bellowing with terror. A number of wine casks, which were lashed on deck, broke adrift at the same time and the decks were a scene of indescribable confused with the seas breaking over the ship at every roll. The flying wine casks broke the legs of some of the bulls and one of them was washed overboard. Meantime the scene almost terrifying under the battened hatches of the steamer where the immigrants were confined to prevent them reaching the decks and being washed into the sea. W'e the steamer was rolling and pitching heavily two electric light wires became crossed and the explosion which followed added to the terror of the passengers, who were either on their knees praying or fighting among themselves in a frantic effort to escape from the ship's hold. When the gale subsided the officers and crew were completely exhausted.

The cause of the quarrel is unknown.

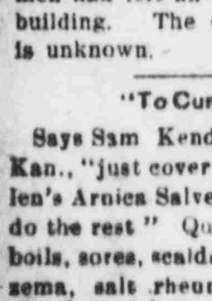
Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.



It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root**, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Japanese Poachers In Trouble.

Victoria, B. C., Sept. 19.—Advices were received from Japan Monday of a fatal affray between Japanese poachers and Russians off the Kamchatkan coast which resulted in the killing of a Russian officer and 19 men and the killing of a number of Japanese, including Lieutenant Odaka and a Japanese captain of a fishing vessel. A party of Japanese fishermen were surprised and their paraphernalia seized by a party of Russians on the ground of poaching. A fight ensued which resulted in the killings. Another report tells of the firing on the Japanese fishing boats by the forts of Vladivostok. The Russian journal at Vladivostok says the action was due to the fact that the Japanese were sketching fortifications and also soundings.

Pain From a Burn Promptly Relieved by Chamberlain's Pain Balm.

A little child of Michael Strauss of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale by all druggists.

Changes in Currents of Pacific.

San Francisco, Cal., Sept. 19.—The steamer Empress of China arrived at Tokio Monday and reports that considerable changes have occurred in the currents of the Pacific. The steamers Manchuria, Mongolia and United States transport Sheridan have all gone ashore in the Pacific in the last month, which causes considerable interest among the shipping men of this port in the Empress of China's story. It is surmised that an eruption in mid-Pacific waters may have had something to do with the grounding of the vessels.

Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters of St. Clair St., Colombos, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters, with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by all druggists.

TO COMPLETE ROAD BY JANUARY

New Year Will See Trains Running Over Extension from Columbia.

Columbus, Ga., Sept. 18.—It is now thought that it will be January before trains are running between Columbus and Atlanta over the Central of Georgia tracks via Newnan, Ga.

The Central has been busily engaged in building its extension from the City of Greenville to the vicinity of Newnan, buthas encountered considerable trouble in getting the necessary labor. There is already considerable railroad building in that vicinity, the construction gangs of the Atlantic and Birmingham railways being busily engaged not far away, and this has made the competition for labor keen. Then, again, the farmers in that section have been short of help and all in all the supply of help has been considerably short. Notwithstanding these conditions, steady progress has been made building the Central extension, although with plenty of labor the road would doubtless be completed now.

Men Past Sixty In Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

DEATH RIDES BRYAN'S TRAIN

President McIver, Member of Reception Committee, Dies of Apoplexy.

Greensboro, N. C., Sept. 19.—The coming of W. J. Bryan to Greensboro was shadowed with gloom. On the same train that bore him and the party came the body of Dr. Charles Duncan McIver, president of the State Normal and Industrial College, who died of apoplexy on the train. He was a member of the reception committee on the part of Guilford county. Immediately upon his arival, the party was carried by automobiles to the McAdoo hotel, where supper was taken.

At 8 o'clock the city hall was crowded to its utmost capacity to hear the speaker. He was introduced in an able and scholarly speech by ex-Lieutenant Governor Charles H. Stedman, a warm personal friend of Mr. Bryan's. Major Stedman paid a glowing tribute to the guest.

Mr. Bryan's speech was an eulogy to Dr. McIver, at whose invitation the Nebraskan came here 12 years ago on his first visit to North Carolina. He spoke in the highest terms of the man. He pointed out that his life was an ideal one, and said he would rather die with his record, than the name and fame of John D. Rockefeller. Governor R. B. Glenn followed Mr. Bryan, and paid a brief tribute to Dr. McIver.

Following the exercises at the opera house a reception was tendered Mr. Bryan at the McAdoo hotel.

The Breath of Life.

It's a significent fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by all druggists. Price 50c and $1.00. Trial bottle free.

Case of Vengeance.

St. Petersburg, Sept. 19.—The Russian Banner, the reactionary organ under whose encouragement the counter-terrorist organization is charged with the murder of ex-Deputy Herzenstine is trying to establish in the death of General Trepoff another case of vengeance. The paper indicates that the late commandant of the imperial palace was poisoned. Jews here are linking the name of ex-Premier Count Witte with this intimation. Count Witte is more hated by the reactionaries than by the revolutionists.

Congestion of Passengers.

Honolulu, Sept. 19.—As a result of the stranding of the Pacific Mail liner Manchuria, and the transport Sheridan, both on their way to the Orient, and now followed by the Mongolia striking a reef near Midway Island, all within less than a month, there is much congestion of passengers here and the long interruptions of the mails is causing great inconvenience.

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" *cures* all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address *free*, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of.

"The Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has THE BADGE OF HONESTY on every bottle wrapper, in a full list of its ingredients.

Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels.

Stiles' Nomination Indicated.

Birmingham, Ala., Sept. 19.—Unofficial returns from Monday's democratic primary in this county indicate the nomination of Judge J. P. Stiles for sheriff over Colonel E. L. Higdon by 45 majority, out of a total of over 9,000 votes cast. The official canvass began at noon. The office of sheriff of this county is the best paying office in Alabama.

Stabbed Sister To Death.

Dallas, Tex., Sept. 19.—A special from Tulsa, I. T., says Riley Thursman, of Bristow, in a fit of anger stabbed his sister Lillian Thurman, aged 4, with a pocket knife. She died a few minutes afterward. Riley confessed to the killing, but is too young to realize the enormity of the deed.

Dr. Finn's Testimony Interesting.

Dr. Thomas Finn of Boonsboro, Mo., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. J. W. McCollum & Co.

No Drum-Head Courtmartial.

HONORS AND WORTH.

Absurdity of Titles That Descend From Father to Son.

When you find a man a most excellent runner, poet, surgeon or mariner, you give him due respect for his skill. If he is very eminent, his occupation esteemed and you chance to be some ruling power, he may receive a title. You do not confer this title because of his grandmother, and you do not make the old lady a duchess or indeed pay her any particular attention. This omission does not reflect discredit on the grandmother. It is obvious to her mind that to make her a peeress because not she, but some one else, has done something "good" would be as absurd as giving her twelve months' hard labor if he had done something otherwise.

Still less rational would it be to make the man's son a peer. The old lady has given the world this grandson. Perhaps she is in a measure the cause of his greatness, just as she might be to a certain extent responsible were he a criminal. But the son of the man did not make his father. He is not to be more greatly praised for what his father has done than for what William the Conqueror did.

The world seldom or never gives a man a title because his father earned one, but it does an equally silly thing when it allows a son to inherit such an "honor," says Home Notes.

Until a man can transmit merit it is absurd to allow him to transmit a testimonial as to merit. And, if there be no pretense of claim to exceptional worth, what solid reason can be advanced for a man receiving a designation that commands deference?

There's a Reason.

Bill—He used to be a lawbreaker, but he's changed now. Jill—Keeps within the law, now, does he? Bill—Oh yes. Keeps within the jail too.—Yonkers Statesman.

Well Worth Trying.

W. H. Brown, the popular pension attorney of Pittsfield, Vt., says: "Next to a pension, the best thing to get is Dr. King's New Life Pills." He writes: "They keep my family in splendid health." Quick cure for headache, constipation and billiousness. 25c. guaranteed at all drug stores.

LANGUAGE EVOLUTION.

Use of the Suffix "Less" In Verbs, Nouns and Adjectives.

Many will remember that some years ago there went on a violent controversy about the word tireless. The discovery had been made that "less" was a suffix which could properly be appended only to nouns; hence the form must be discarded, and we must all take pains to say untiring. The duty of so doing was preached from scores of professional and newspaper pulpits. No one seemed to think or care for the various other adjectives similarly formed and therefore liable to the similar censure, which they never received. Hostility was directed against it alone. The actual flaw which vitiated the arguments against tireless its censors never knew or took into consideration. This was that the fancied rule covering the creation of such words had practically long ceased to be operative whenever a new formation struck the sense of the users of language as being desirable.

Unquestionably in our earliest speech the suffix "less" when employed to form adjectives was joined only with nouns. But the general sloughing off of nominal and verbal endings which went on in later centuries reduced a great proportion of substantives and verbs in the speech to precisely the same form. In consequence the sense of any fundamental distinction between the two broke down in many ways—in one way in particular. There is nothing easier in our speech than to convert a verb into a noun or a noun into a verb. It is a process which has taken place constantly in the past and is liable to take place at any time in the future, either at the will or the whim of the writer or speaker.—Thomas R. Lounsbury in Harper's.

Mr. and Mrs. Chas. R. Carter and Miss Belle Chitty, who have been on an extended tour North, have gone to Micanopy, after a visit to relatives in this city. Mr. Carter is a conductor on the Atlantic Coast Line, and expects to resume his duties on the Jacksonville-St. Petersburg run in a few days.

Among the visitors to Gainesville yesterday was Hon. W. I. Metcalf, a well known attorney, and mayor of the town of West Palm Beach, on the East Coast. The Peruchi-Gypzene Company, which has been at the opera house for the past three nights, closed the season last night by the production of that thrilling comedy, "An American Correspondent." There were only a few present, but they appeared to enjoy the play. The engagement of this company has been very successful, considering the fact that they succeeded a solid week's engagement of the Park Dramatic Company here.

Attention is called to the advertisement of Hayes' bowling alley, which appears elsewhere in this paper. This resort is one of the most popular of its kind in the State, and is conducted upon clean and moral lines. Special afternoons, from 2 to 5 o'clock, will be devoted exclusively to ladies and their gentleman friends; if desired. Bowling is a healthful and pleasant exercise, and Mr. Hayes is endeavoring to give the public a resort which will be a credit and a benefit to the city.
